

REVERSAL---U.S. SENATE AND WHITE HOUSE?

by Sherman H. Skolnick 05/28/01

An acute understanding of history and politics can be useful. Sometimes, however, others misunderstand.

Starting about a year before the year 2000 Presidential Election, I repeatedly stated on numerous radio talk shows that, as to the then upcoming Election, that we most likely would NOT have an election in the usual manner. A flood of questions arose. "Will we have martial law, and if so, why?" And "Will the Election be called off?"

Studying past events, such as the strange alleged "election" of 1876, some put their ear to the ground. Did they hear the thundering horde a long way off? Others, history-deaf, heard nothing. In January, 2001, at the time of the purported "Inauguration" of George W. Bush, I told a few confidants that I thought the results of the strange election of 2000 would be reversed. They angrily answered, "Reversed? How?" adding "The U.S. Constitution does not provide for such a thing." (Or does it?) With no quick rebuttal, I let the matter alone, for a while.

By a U.S. Senator departing his political party, the Senate majority and agenda have been overturned. By what means, if any, would the "election" of what some prefer to call "Bushfraud" be reversed? Many of the possibilities are known to the American press-fakers who more or less stay silent.

[1] Some call the "real president", not the resident or occupant of the White House, but the one who won the year 2000 popular vote by a 600,000 vote plurality but was not inaugurated. Why? Because the Electoral College vote, just like in 1876, was "stolen", some say, through Florida corruption. [See our related website stories as to Gore Vidal's book, "1876" reprinted in paperback form just before the year 2000 Election. Was he just a clever author or a CIA-linked puppet, on a vast orchestrated scheme?] Suppose it becomes widely publicized that the GOP reportedly corrupted southern Florida DEMOCRATS to block a proper recount?

[2] And, suppose it becomes widely publicized that, through treasonous use of Red Chinese funds laundered through the Chicago markets, that the Bush Family bought top Democrats in southern Florida, to "steal" the crucial Florida Electoral College vote? [Again, see our website items on comparison to the 1876 Election and Florida. By the way, the British aristocracy wants the turmoil, since they have tried repeatedly since the War of 1812, to destroy the U.S. Government and to try to revert this Continent and its people back to being subjects of British colonies. The Brits played a role in the political assassination of three U.S. Presidents who resisted British efforts to divide up this nation, Presidents Abraham Lincoln, James Garfield, and William McKinley. The Elder Bush and his sons, George W., Jeb, and Neil, have a joint account with the Queen of England through her private bank, Coutts Bank London. See the secret Federal Reserve wire transfer records, in our website series "Greenspan Aids and Bribes Bush". Together, they launder Hundreds of Billions of dollars from the illicit dope trafficking, weapons smuggling, and other contraband.]

[3] Suppose it becomes widely understood that the five-judge majority on the U.S. Supreme Court that installed George W. Bush as White House resident, was corrupted? Thus bringing America's highest court as well as the alleged year 2000 "election" under the most severe cloud of suspicion and disgrace? Who notes that after the disastrous Dred Scott decision of 1856, ruling blacks are baggage and have no rights, that the high court went into several decades of never-never land. The Dred Scott decision is still on the books. Some hard-hearts currently on the court seem to be apologists for the infamous ruling. Justice Clarence Thomas, at the time of his ratification in 1991, came almost to the point of saying the decision is okay, based on his idea of "natural justice".

As to the Gang of Five on the U.S. Supreme Court, see the book by a legendary American prosecutor, "The Betrayal of America-How the Supreme Court Undermined the Constitution And Chose Our President" by Vincent Bugliosi. Nation Books, N.Y., 2001.

[4] And suppose White House "resident" Bush cannot deal with a severe economic downturn, a collapse of the markets and the so-called "U.S. Dollar"? So he goes bananas. Some psychiatrists already claim he has what they in their trade call a "nut-house face", typically that of someone who for years and years has used mind-altering drugs.

[5] Further, consider that purported Vice President Dick Cheney, a sick man, is shown to be in treasonous business dealings in oil patch goods, through his firm Halliburton's foreign units, with Iraq. Remember, Cheney has been CEO of Halliburton. And that these treacherous dealings overlap the Bush Family private business partnership dealings with Saddam Hussein, once subject of an unpublicized lawsuit in Chicago. [As detailed in earlier items, I was the only journalist covering the Bush-Saddam hearings.]

[6] And suppose it becomes widely known that the Bush/Cheney White House has continued and perpetuated the Clinton cover-up of facts showing that the Oklahoma City bombings [more than one device was used] were arranged by Iraq as revenge. And that Iraq to disguise their role, used U.S. insulated domestic dissidents, like Timothy McVeigh, as surrogates. And that the Elder Bush, at the close of the Persian Gulf War with his former business partner Saddam Hussein; that Bush brought quietly into the U.S. several thousand Iraqi military officers, some with intelligence units, many of them living with their families IN OKLAHOMA CITY. And, that the American Gestapo, the FBI, has closed circuit video showing an Iraqi military officer supervising the bombings. That is, a Clinton/Bush/Cheney cover up that Iraq was responsible for the worst terrorist attack, so far, on U.S. soil. [Remember the detail McVeigh murder trial judge Richard Matsch was intimidated to follow the cover up because of the murder of the judge's daughter. See our previous website story.]

[7] Consider that it becomes widely known, with details, that the Younger Bush is merely a marionette, under the control of his CIA father, the Elder Bush, and handlers. And further, that it becomes more widely known and understood that the Elder Bush played a role in the cover-up of the political assassination of President John F. Kennedy. [An FBI document circulated by us and others shows this.] And that the Younger Bush helps

perpetuate the false idea that a "lone nut" and not the American CIA was responsible for the Dallas murder.

[8] Suppose it becomes widely known and understood that White House resident Bush and his pal, Mexican President Vicente Fox, together are closely linked, if not actually in business, reportedly with one of the most notorious drug kingpins in Mexico. Three Mexican newspapers have set forth the details generally ignored by the American newsmongers. ["Spotlight", a populist newspaper, 5/28/01.] Some contend Coca-Cola is a CIA proprietary operation used, in part, to launder worldwide narcotics funds. See our website series, "Coca-Cola, CIA, and the Courts". Vicente Fox has been head of Coca-Cola in Mexico.

[9] Suppose it becomes widely known and publicized that the Younger Bush aids his father, the Elder Bush, in covering up the treason of "The October Surprise". That is, the Elder Bush arranged the treasonous delay in the release of 52 U.S. hostages by Iran, to show Jimmy Carter, running for re-election, as a wimp who could not get the hostages released. The Elder Bush paid off Iran through secret weapons shipments through Israel, to further the Iraq-Iran War, 1980-88. The hostages were released at the very moment in 1981, that Reagan/Bush were inaugurated. In a similar treasonous deal, the Younger Bush, through Greenspan, reportedly arranged the transmittal of billions of dollars to pay-off the Red Chinese to release, in April, 2001, the 24 airpersons of the U.S. spy plane forced down in Red China. Some contend the pay-off funds got somehow blocked in transmittal through Singapore.

[10] Suppose it becomes widely known that George W. Bush has appointed if not already installed cabinet members and agency heads who are either reportedly linked to the Red Chinese Secret Police, such as Elaine Chao, Labor Secretary. Or Drug Enforcement Administration chief, Asa Hutchinson, a Congressman {R.,Ark.} Hutchinson when he was Chief Federal Prosecutor in the Western District of Arkansas, protected a major drug smuggler, Barry Seal, linked to the Elder Bush, Bill Clinton, Ollie North, and CIA operations through the Mena, Arkansas Airport. By some corrupt arrangement, George W. Bush and brother Jeb became heir to Barry Seal's airplane, later used by the two Bush brothers to pick up dope, with impunity, through a Florida military airport [while the Elder Bush, as Vice President, headed the supposed Anti-Drug Operation in southern Florida].

[11] Suppose it becomes widely known and publicized that the Younger Bush, as White House resident, has aided his father in covering up the Bush Family role in the murder of Clinton White House Deputy Counsel Vincent W. Foster, Jr. The Elder Bush as Vice President together with then Secretary of Defense Caspar Weinberger, arranged to pay-off some in the aristocracy in Israel for their role in transferring weapons shipments for treasonous "October Surprise". The pay-off was nuclear missile tracking secrets that Bush/Weinberger arranged to be taken through security check-points by a low-level Naval analyst, Jonathan Pollard. The middle-man making the deal work was Foster long before he had a role in the Clinton White House. From the late 1970s on, Foster was a super money laundry courier and espionage expert. [More details, visit our website series "Greenspan Aids and Bribes Bush" Part Four.] Weinberger/Bush, when Pollard pleaded guilty, wanted Pollard somehow put before a firing squad, one way, they

thought, of keeping him from ever identifying Foster as an accomplice with Weinberger/Bush. Pollard was locked up in a prison basement, and seldom sees daylight.

[12] Also, Foster was part of a team arranging to arrest international swindler Marc Rich at the French-Swiss border. Rich had arranged treasonous deals for the Bush Family to violate the Iran oil embargo, 1980s, later, the Iraq oil embargo. The Bush family profited by billions of dollars through this treachery. [See our website, Affidavit of Leo Wanta.]

[13] To benefit Enron Corp., a Texas-based major energy firm, and other energy firms in Texas, linked to Dick Cheney, George W. Bush reportedly arranged to "screw" California on the electricity shortage matter. Enron and other Texas firms, supporters of the Bush Family and interlocked in business with them, have been permitted to charge California, in the emergency, of ten times or more the going rate for megawatts per hour. It was a reprisal, understood by many in California, for the state having voted heavily for Bush's opponent Gore in the year 2000 election. Some expect the California emergency to spread to the Chicago-area. A California utility parent firm, through its unit, has purchased much of the power-generating facilities in the Chicago-area. The California emergency is expected to therefore impact the Chicago-area which along with much of Illinois, voted for Gore. [Story of the mess is in Crain's Chicago Business, front page, 5/21/01.]

[14] White House Resident Bush, shortly after inauguration, came to Chicago. Among other things, in a closed meeting, he sought to reportedly shake-down the Irish-Catholic aristocracy that runs the Chicago Board of Trade. He wanted more co-operation in laundering the dope funds of the Red Chinese through the Board of Trade, disguised as soybeans and other items. When traders and other honchos resisted, Bush threatened to have them prosecuted for something [he will think of something]. Note, the Elder Bush, similarly, the day after HE was inaugurated in January, 1989, started the prosecution of 46 young Chicago commodity and currency traders, mostly on five dollar matters of which clients never complained.

The threatened federal criminal prosecutions of the Board of Trade people by the Younger Bush is to get at Chicago Mayor Richard M. Daley. The pro-British Bush Family are out to stick it to the prominent Irish Catholics, supporters of Daley and the Democrats. To carry out the reprisals, Bush is sending in a New York Federal Prosecutor to be the new Chief Federal Hang-Man in Chicago. Remember, the Bush Family have a joint account with the anti-Irish Catholic, Queen of England.

A possible scenario George W. Bush is removed as unfit to carry out the duties of his office, the procedure provided for under the 25th Amendment to the U.S. Constitution. The presidential power automatically devolves on the Vice President, Cheney, who, however, with an extreme bad heart condition, cannot serve. So, next considered, Secretary of State, General Colin Powell takes over amidst his edict of martial law. [Others in line of succession ahead of him, not available.] Powell is no angel. As we and others have pointed out, General Powell along with the Elder Bush and Powell's crony, Richard Armitage, now Deputy Secretary of State, have controlled the dope traffic from the "Golden Triangle", Southeast Asia, Southwest China.

Just another story suppressed by the liars and whores of the press. You know who, those with the fifty dollar hairdoes and the nickel heads. So, will there be a reversal of the Bush/Cheney White House?

More coming. Stay tuned.
